## Leadership Commitment & Ministerial Covenant

DEAR: \_\_\_\_\_,

### Welcome to the Loving Service Leadership Program!

Personal Expansion and Manifestation are the fundamental processes on the spiritual path. We seek to expand our capacity to experience and express our divine nature through love and service. The Center for Spiritual Living has established the Loving Service Leadership Program to support participants to be their full-potential through their church. The opportunities to serve, called Leadership Appointments, are intended to both help the church reach its full-potential, and all those who serve through it.

Service is meant to be a contribution, not an obligation, a privilege, not a sacrifice. When we are involved in something bigger than ourselves, the problems of life become less consequential. When we are making a difference in others' lives, we are really making the biggest difference in our own lives. Unless we are expanding, we are contracting.

This is why we invite you to give yourself whole-heartedly in loving service; yet we trust you will get even more out of this than you put in to it. When we serve with caring and responsiveness we expand in love and wisdom.

We welcome you to lovingly serve through this Leadership Appointment. Thank you for your commitment to make a difference.

Love and Blessings,

### A COMMITMENT TO EXPANSION AND MANIFESTATION

All your peer leaders deeply appreciate your commitment to contribute to –

- expressing the CSL mission, manifesting our goals and realizing the vision;
- the well-being and full potential of your fellow members and spiritual “pathmates”;
- helping transform our communities through this church.
